

WoodWorks Sizer for Nordic Engineered Wood

Nordic Sizer Version 4.0 (February 2010)

This version contains the most up-to-date Nordic material specifications as well as modifications and fixes to the WoodWorks Sizer program. All designers using previous versions of the Nordic software should install this version.

This upgrade requires a new keycode the first time you run the program. A Software ID is displayed and a keycode is requested. Keycodes will only be given to authorised users. Those wishing to simply evaluate the program may type "DEMO" instead of a keycode.

Download Instructions

- 1) Go to Nordic's web site at www.nordicewp.com, under section **Software**.
- 2) Scroll until you find the **WoodWorks Software**.
- 3) Click on the option **Software demo download for Nordic Sizer**.
- 4) Select the link [Nordic Sizer 4.0 USA](#) or [Nordic Sizer 4.0 CDN](#), as appropriate.
- 5) Perform the **setup** for the demonstration of Sizer immediately

Or, save the download/setup file to your hard drive. If you save the file, you can open it later and run the Sizer setup. This is done by opening the file in Windows Explorer or by the "Run" command on the Start Menu.

- 6) Get a **keycode** from Nordic Engineered Wood by filling and sending the **software request form** (available next page) to Nordic at info@nordicewp.com, or any of the following:

Nordic Engineered Wood
Windsor Station, Suite 304
1100 de la Gauchetiere St. W.
Montreal (Quebec) H3B 2S2
Phone: (514) 633-9661
