

## *Introduction*

Nordic I-PLAN Software

### **Installation Instructions**

Follow the steps below to get registered and install the software.

**MAC Address** – The license management system uses the network card MAC address. If you do not have a network card, please contact Nordic to get a protection key.

1. Click on *start*
2. Then on **Run...**
3. Type: **cmd**
4. Press **Enter**
5. Type: **ipconfig /all**
6. Note the *physical address*

```
Ethernet adapter Wireless Network Connection: (if applicable)
  Connection-specific DNS Suffix:
  Description:
  Physical Address: 00-0E-24-D3-85-CB
  Dhcp Enabled:
  ...
```

```
Ethernet adapter Local Area Connection:
  Connection-specific DNS Suffix:
  Description:
  Physical Address: 00-19-ED-36-1B-44
  Dhcp Enabled:
  ...
```

**Information Required** – Send the following information to [info@nordicewp.com](mailto:info@nordicewp.com) in order to get the *client directory* and *password* for downloading the program; expect 24 hours for getting the info.

1. Company name
2. User name
3. Email address
4. MAC address

### **Download Instructions** –

1. Go to [www.civild.com](http://www.civild.com)
2. Click on **English**
3. Under **Downloads**, click on **Clients**
4. Enter the appropriate information and select the application: **Nordic**
5. Under « Nordic Update », select **SetupNDxx-yyy.exe**
6. Save it under the folder **C:\Nordic**
7. Select and save the security file **NDxx-yyy.zip**
8. Under « Documents », click on **Installation Procedures**
9. Select **Installxx\_EN.pdf** and save the file.

**Installation Instructions** – Follow the complete instructions giving in the document (ref. *Installxx\_EN*), or the easy steps below (only for first installation of a stand-alone version). Close all Windows applications before executing the installation program; then double click on **SetupNDxx.yyy.exe**.

1. Select the language **Anglais**
2. Click **Next**
3. Select **Yes** if you accept the license agreement
4. Select **STAND-ALONE Installation**
5. The local directory is **C:\Nordic**
6. Enter your name and company
7. Select **Stand-alone with network adapter card**
8. Click on **Complete initial installation**
9. Verify the configuration, click on **Next** and **Finish**

Double click on **NDxx-yyy.zip** and extract the file in the directory **C:\Nordic\User**.

If your computer is configured with Windows NT/2000/XP, you must restart your computer.

**Updating the software** – When upgrading Nordic I-PLAN, the *NDBase.mdb* file will not be overwritten. This file contains the user's customized data for materials, settings, etc. Before you start the installation program, close all Nordic I-PLAN applications.

1. Follow the download instructions, steps 1 through 7
2. Run the file **SetupNDxx-yyy.exe** and follow the steps
3. Copy the file **NDxx-yyy.exe** in the directory **C:\Nordic\User**
4. Double click on the file and answer “**Y**” to overwrite
5. Restart your computer
