

A place called home  
means having  
a safe environment,  
good neighbors,  
local conveniences,  
community support and

...reliable  
I-joists

The place you call home rests on the assurance of reliable I-joists. NORDIC JOIST™ provides the reliability, security and stability you want for a comfortable living environment.

Nordic Engineered Wood is committed to developing high quality wood products for the residential and light commercial industries. We make the fabric from which neighborhoods are built.

All Nordic joists are made of Black Spruce, machine stress-rated lumber.

Longlasting, structural integrity is a guarantee that comes with every Nordic Engineered Wood product.

Some things shouldn't be taken for granted. The safety and support you'll get from NORDIC JOIST™ will be as sure as the floor you're standing on.
