

The Natural Advantage of

NORDIC LAM™

for the Ontario Builder

Resource friendly, made from 100% black spruce, glulam products from Nordic Engineered Wood provide the dimensional stability and high strength reliability builders need in residential, commercial, industrial and architectural construction.

Light in weight and design flexible, the Nordic Lam™ line of products provide price- and performance-based solutions for all your design and building requirements.

Nordic Lam™ beams, headers and columns feature our exclusive **Enviro≡Lam™** technology, a unique process that minimizes waste through fibre optimization. Renowned leadership in responsible management of over 2 million acres of sustainable forests demonstrates our commitment to natural resource conservation, while delivering products of uncompromising quality to our customers.

Call us today and discover the many ways Nordic Lam™ can add value to your construction project.
