

The Natural Advantage of

NORDIC LAM™

Resource friendly, made from 100% black spruce, products from Nordic Engineered Wood provide the design flexibility, dimensional stability, and high strength reliability builders need in residential, commercial, industrial and architectural construction.

Nordic Lam™ beams, headers, columns, tall wall studs, and our latest innovation, the NI-90x I-joist series provide price- and performance-based solutions for all your design and building requirements.

Nordic's glulams and I-joists feature an exclusive Enviro≡Lam™ technology, a unique fiber optimization process that minimizes waste and converts more of nature's raw material into useful products than ever before.

Renowned leadership in responsible management of over 2 million acres of sustainable forests demonstrates our commitment to natural resource conservation, while delivering products of uncompromising quality to our customers.

Call us today for a Nordic representative near you and discover the many ways Nordic Lam™ can add value to your construction project.
