

*The Natural Advantage of*

# NORDIC LAM™

*for the Virginia Builder*

**R**esource friendly, made from 100% black spruce, glulam products from Nordic Engineered Wood provide the dimensional stability and high strength reliability builders need in residential, commercial, industrial and architectural construction.

**L**ight in weight and design flexible, the Nordic Lam™ line of products provide price- and performance-based solutions for all your design and building requirements.

**N**ordic Lam™ beams, headers and columns feature our exclusive **Enviro≡Lam™** technology, a unique process that minimizes waste through fiber optimization. Renowned leadership in responsible management of over 2 million acres of sustainable forests demonstrates our commitment to natural resource conservation, while delivering products of uncompromising quality to our customers.
